

Product Sheet

Loose Blush, Radiance & Bronzers

Mineral Blush

Loose mineral powder blushes that are specially blended for superior adhesion and long wear.

Retail Pricing

20 gram sifter jar (7 g net wt) - \$16

10 gram sifter jar (3 g net wt) - \$11

Ingredients:

Mica, Kaolin Clay, Zinc Oxide, Magnesium Stearate, Allantoin, Silk, Iron Oxides, Titanium Dioxide. Some shades may contain Ultramarines, Carmine, Tin Oxide.

Radiances

Radiance is a very sheer, incredibly sparkly and versatile powder designed to be used anywhere you dare - face or body! Give yourself the ethereal and youthful glow of girlhood or brush a little on the shoulders for a sexy and sophisticated look on your evening out. Try accentuating cleavage - its drop-dead sexy! Our Warm and Autumn shades are fabulous for women of color. 4 great shades. Application is simple. You can use any type of brush that performs best for you. We suggest a Kabuki for more dramatic effect or perhaps a loose-bristle type brush (i.e. fan brush) for lighter, more subtle effect. This powder is also ideal to mix in with lotion, for an even longer-lasting effect! Use with care around eye area.

Retail Pricing

50g sifter jar - \$32

30g sifter jar - \$26

20g sifter jar - \$22
