

## Product Sheet Pressed Perfection Foundation

Pressed Perfection Mineral Foundation is everything you want from a natural mineral makeup with the neat convenience of traditional cosmetics - but without the cheap fillers and petrochemicals. Pressed Perfection is an innovative new cream-to-powder foundation that fits skin like a glove, providing superior matte coverage and blendability with the same lightweight feel of loose mineral makeup. Incredibly long-wearing, water-resistant and non pore-blocking, Pressed Perfection is easy to apply and is great for your skin - the main ingredient is squalane (olive-derived, of course). As with all Lueur Jeune cosmetics, this one is bismuth-free and fragrance-free.

Texture: Pressed Perfection is a creamy powder (not a hard pressed powder) that feels dry to the touch, but is easily applied and very blendable. You will be able to sink a fingernail into it. It turns to a powdery finish on skin.

Best for normal, dry, sensitive and mature skin types.
