

## Product Sheet UltraCover Foundation

UltraCover™ is a highly effective, total matte coverage foundation, with the same light, silky application and long wear as our other formulas. Formulated with soothing and skin-healing ingredients, UltraCover™ was developed for a leading plastic surgeon for his post-surgical patients. UltraCover™ will not dry out skin, and covers redness, spider veins, and even post-surgical bruising - and still looks natural! Maximum coverage is achieved using a flocked sponge.
